

Year 1

COURSE PROGRAMME

Plenary, Parallel and Clinical Case Based Sessions

Colorectal	Faecal incontinence
	Infectious colitis including Clostridium difficile
	Management of abdominal emergencies
	Management of early colorectal cancer
Endoscopy / Imaging	Malignant biliary obstruction
	Advanced diagnostic endoscopy
IBD	Extraintestinal manifestations of IBD and co-morbidities
	Early management of IBD
	Refractory IBD
Liver	Assessment of liver function
	Diagnostic work-up for liver nodules
	NAFLD and NASH
	Viral hepatitis (excluding hepatitis C)
Oesophagus	Benign causes of oesophageal dysphagia
	Management of gastro-oesophageal reflux disease
Pancreas and Biliary Tract	Early management of acute pancreatitis
	Pancreatic adenocarcinoma
Small Bowel	Chronic intestinal failure
	Coeliac disease
Stomach	Dyspepsia and gastroparesis
	Upper GI bleeding

Bonus Session
Therapy update
in significant fields

2 Video Case Sessions

Endoscopic diagnosis and management of

- biliary strictures
- benign pancreatic disease including cysts
- small bowel disease

Endoscopic stenting in the treatment of GI obstruction

Endoscopic treatment of lower GI bleeding

Endoscopy in IBD

Year 2

COURSE PROGRAMME

Plenary, Parallel and Clinical Case Based Sessions

Colorectal	Chronic diarrhoea
	Colorectal cancer, staging, surgery and adjuvant therapies
	Colorectal polyps
	IBS
	Lower GI bleeding
Endoscopy / Imaging	Advanced endoscopic techniques
IBD	Acute colitis
	Cancer and IBD
	Management of Crohn's disease
Liver	Hepatitis C
	Hepatocellular carcinoma
	Liver and pregnancy
Oesophagus	Barrett's oesophagus
	Non-cardiac chest pain
Pancreas and Biliary Tract	Autoimmune disease of liver and bile duct
	Cholangiocarcinoma
	Cystic pancreatic lesions
	Gallstones and complications
Small Bowel	Malabsorption
	Small bowel imaging and endoscopy
Stomach	Bariatric surgery
	Gastric cancer

Bonus Session
Therapy update
in significant fields

2 Video Case Sessions

Endoscopic handling of colorectal polyps

Endoscopic therapy of endoscopic and surgical complications

Endoscopic treatment of walled-off pancreatic necrosis and abscesses

Upper GI bleeding: Variceal / nonvariceal

Year 3

COURSE PROGRAMME

Plenary, Parallel and Clinical Case Based Sessions

Colorectal	Advanced colorectal cancer
	Constipation
	Diverticular disease
	Proctology
Endoscopy / Imaging	Quality in endoscopic practice
IBD	How to use drugs in IBD
	Management of ulcerative colitis (UC)
	Monitoring of disease activity in IBD
Liver	Alcoholic liver disease
	Complications of liver cirrhosis
	Fulminant hepatitis, liver failure, liver transplantation
Oesophagus	Oesophageal cancer
	Swallowing disorders: Oropharyngeal dysphagia
Pancreas and Biliary Tract	Autoimmune pancreatitis
	Chronic pancreatitis
	Complications of severe acute pancreatitis
	Neuroendocrine tumours
Small Bowel	Obstruction and ileus
	Small bowel tumours
Stomach	Anorexia and unexplained weight loss
	Gastric polyps and submucosal lesions
	Peptic ulcer disease

Bonus Session
Therapy update
in significant fields

2 Video Case Sessions

Approach to early duodenal lesions

Biliary cannulation, - sphincterotomy, - precut and - stone disease

Diagnosis and management of early gastric lesions

Endoscopic diagnosis and management of Barrett's oesophagus and associated neoplasia

ERCP in normal and post-surgical anatomy
